

PORTABLE FIRE PUMP High Capacity 1400Lpm

SHRI GANESH INDUSTRIES

Next Generation Pump for Fire & Rescue Operations

Salient Features of SGI 1400

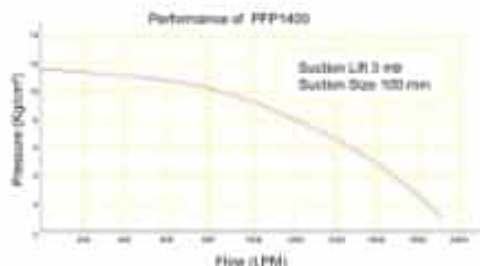

1. **Performance** — 1400 LPM @ 7 Bar Pressure
2. **Compliance** - According to IS 12717, CE certified
3. **Engine** — - 4-stroke Petrol Engine
4. **Carrying Frame** - Tubular steel carrying frame with four folding handles
5. **Priming System** — Rotary Vane Type priming system capable to lift water from 7 meters in less than 30 seconds
6. Compact & Light in weight.
7. Flood lamp for night operations.
8. **Economical** — Fuel Tank capacity sufficient to run the Pump for 2 hour
9. Available in Aluminium

With illuminated LCD panel showing RPM, Internal engine temperature, battery voltage, fuel level, oil pressure, Low fuel warning on LCD panel.

TECHNICAL SPECIFICATIONS

- | | |
|---------------------------------|--------------------------------|
| 1. Performance | 1400 LPM @ 7 Bar. |
| 2. Engine & Its Type | GENER, 4 stroke, Petrol Engine |
| 3. Fuel Tank Capacity | 12 Ltr. |
| 4. Priming System | Rotary Vane Primer |
| 5. Suction Inlet | Dia. 100 mm |
| 6. Delivery Outlet | Two Outlet of Dia. 63 mm |
| 7. Weight Less then | 130 Kg. |

APPLICATIONS

- Fire Fighting
- De-Watering
- Industrial Washing
- Flood Relief
